

KOURA-TINT

- **KOURA-TINT** : binder free pigment concentrates with maximum pigment loading which reduce color usage in different application including tinting of MMA syrup for both interior and exterior cast acrylic applications and also for coloring epoxy system, urethanes ,cellulose acetate butyrate ,chlorinated rubber ,nitrocellulose ,polyester ,styrenated alkyd .
- **KOURA-TINT**: Easy incorporation with different systems for homogenous color.
Available in all main colors based on a high quality selected pigments with a very good hiding power, fineness and light fastness.

Typical properties:

- Particle size range: < 15 microns.
- Solvent: phthalate type.

| color | Color index | Pigment content % | Light fastness | Heat resistance C |
|---------------|-------------------------|-------------------|----------------|-------------------|
| White | P.W 6 | 75% | 8 | >200 |
| Yellow | P.Y 74 | 25% | 7 | 160 |
| Golden yellow | P.Y 34 Chrome yellow | 55% | 8 | 200 |
| Red | P.R 170 | 25% | 7-8 | 180 |
| Green | P.G 7 | 25% | 7-8 | 200 |
| Blue | P.B 15:3 | 20% | 7-8 | 200 |
| Black | P.B 7 | 20% | 8 | >200 |
| Yellow oxide | P.Y 42 | 55% | 8 | >200 |
| Red oxide | P.R 101 | 65% | 8 | >200 |
